

SEMI-AUTOMATIC VERTICAL PALLET STRAPPING MACHINE

PALLET PAC PLUS 502

Pallet PAC Plus 502 inherits all of the advantages from Genesis PSS502, such as compact strapping head, direct drive technology with German-made DC motors, and electronic tension control. It eliminates the use of manual tools and dispensers, and can be moved easily beside the load you want to strap without moving the pallet. Pallet PAC Plus 502 provides an ergonomic and cost-effective solution for low volume vertical pallet strapping applications.

Main Features

Compact Mechanical Strapping Head

With 30% less moving parts than conventional machines substantially reduces maintenance issues. There are no belts, chains, or pulleys. Extremely low noise sealing head.

Electronic Tension Control

Strap tension can be adjusted accurately by a simple turn of the dial on the control panel. Tension force is up to 157 lbs (70 kg).

Jog Switch

Using the “Jog switch” to adjust the machine to exactly the correct position for maintenance.

Adjustable Weld-Cooling Time

The weld cooling time can be increased to ensure high joint efficiency under high tension.

Mobility

With light weight and compact size, it is easy to move the machine beside the pallet you want to strap.

Various Applications

Suitable for corrugated cardboards, concrete blocks, and pallet loaded with cardboard boxes containing any type of products.

Option

- Battery power supply (PSS502MVB)

Technical Data

Strap Type	PP strapping
Strap Width	3/8", 1/2", or 5/8"
Tension Range	18 - 155 lbs
Minimum Package Height	15" (Incl. pallet)
Length of the Sword	50"
Weight	205 lbs
Electrical Requirements	110V, 220V, 230V, 240V 50/60Hz 1PH
